Our priority has always been and always will be serving our communities. These are unprecedented times and we know our small businesses that are at the heart of our communities have been vastly impacted. Our Management Team has been working urgently with the Small Business Administration and Regulatory Agencies to gain the ability to submit applications for the Paycheck Protection Program. We are hopeful that the Program will offer some relief to small businesses in Oklahoma.

We are dedicated to allocating our greatest resources to help your business survive this difficult time and help you gain access to the emergency fund. Even during times of uncertainty, you can always count on us to be more than a bank because you are more than a customer.
